Cloud Computing Courses - Free

On 26th October, AWS re/Start launches in Scotland. Primed Talent will be the collaborating organisation and they will focus on recruiting those with a desire to retrain into a tech career in Edinburgh, Glasgow and Dundee. AWS re/Start is already busy working with AWS teams to find job placement opportunities in and around these cities ahead of their graduation at the end of January 2021. The selected learners attend a twelve-week, hands-on re-skilling programme to prepare them for jobs in the cloud. The programme provides technical content, along with soft skills and employability skills, such as practicing for technical interviews and CV writing. The programme is free for learners to attend.

Closing Date 23 January 2021

- **BAE Systems - Glasgow**

MA Mechanical Fitter x 3

As a mechanical fitter, you will install major equipment, and machinery aboard ships, and prepare and align seats for the main engines, gearboxes and propulsion shafts. This will involve detailed and precise alignment techniques with minimum tolerance to demonstrate a successful build. You will be trained to assemble, install and maintain complex machinery. You will learn to read engineering drawings and to use a wide range of tools. As part of your role, you will look after valves, pumps and transmission systems, while being responsible for prime movers such as diesel engines and gas turbines, and understand the importance of Health and Safety in the workplace. You will also have the opportunity to work in conjunction with different trade groups such as Pipefitters when installing equipment systems to prepare for Ship Delivery.

<https://www.apprenticeships.scot/vacancy-details/?refCode=131065>

Date added 26 November 2020

Closing Date 23 January 2021

- **BAE Systems - Glasgow**

MA Manufacturing Engineer x 3

In this area would mean that you would work across a number of disciplines such as Build Line Support, Manufacturing Build Planning, Systems, Jigs and Tools, Governance, Dimensional Management, Continuous Improvement etc. The focus is on the design, development and operation of integrated systems of production in order to obtain high quality and competitive products such as handling equipment, machine tools, robots or computers and networks. The role works between Engineering and Operations and interprets the Engineering outputs, such as drawings, tooling and documentation in order that Operations can undertake the build of the surface warships efficiently and effectively. For those people who have a passion for engineering, science and maths, then these skills would be used when working with mechanics, materials, instrumentation and measurements, pneumatics, energy conversions etc. To be a successful Manufacturing Engineer then having skills and a passion for problem-solving, team working, IT, analytics, being curious, being able to communicate and having attention to detail would be essential in this area and would be further developed during the scheme.

My World of Work Job Hub

In partnership with industry and in rapid response to the COVID-19 pandemic we have developed a new feature on My World of Work to support those seeking employment at this critical time. The My World of Work Job Hub brings together immediate job opportunities from employers across Scotland in line with Scottish Government advice on Coronavirus. The job opportunities that appear in the job hub have been gathered from various sources. It is at your own discretion to apply for opportunities that comply with the government advice surrounding COVID-19.

- UK Government Kickstart Scheme

A new scheme called 'Kickstart' have been announced by the UK Government to support 16-24 year olds into work.

Managed by DWP, young people who are unemployed and on Universal Credit, assessed as work ready but struggling to secure work and at risk of long-term unemployment will be supported by their Jobcentre Plus work coach into opportunities identified on the Universal Job Portal. The first placements are due to start in November and will run for a period of 26 weeks. It is hoped that the placements and additional training will build work skills and lead to longer term sustained employment. The government will fully fund each "Kickstart" job, paying 100% of the age-relevant National Minimum Wage, National Insurance and pension contributions for 25 hours a week. In addition, employers will receive £1,500 which they may use to set up support and training for those taking part, or other set-up costs such as buying uniforms.

Covid 19 volunteer opportunities

Whether it's practical or emotional support, there are lots of ways you can volunteer to help. For some that may be right now in helping to manage the crisis, for others there will be roles in the weeks and months to come. You can only volunteer to carry out tasks which involve leaving your home, if you are not required to be isolating and are not in any risk categories.
